

Press Release

Linux Marathon. Multimedia Edition

31 march 2018

The Linux Marathon Project presents an special and mono-graphic edition focused on multimedia creation. In this new event photography, 3D design and educational topics will be discussed... as usual exclusively related to the world of **GNU/Linux** and **Open Source Projects**.

This Spanish spoken event will be live-streamed via different channels, and it will take place over 4 hours starting on **Saturday the 31st march at 17:00** (UTC):

- YouTube: <https://www.youtube.com/maratonlinuxero>
- Reprodutor de la web oficial: <https://maratonlinuxero.org/>

The timetable includes (UTC hours):

- 17:00– Introduction; educational projects based on FOSS feature Esti from Saregune
- 18:00– Photography, feat. Paco, Tomás Senabre, Luis Portillo & Pablo Moratinos (fotolibre)
- 19:00– 3D design with Blender & Blenderianos, feature Suzanne & Ritxi
- 20:00– Conclusion and Project review

Every area will be conducted by one or more recognized podcasters in the Spanish language GNU/Linux Communities.

As usual we will be online by the hands of three important companies that support Free Software: **VANTPC**, **SLIMBOOK**; and **NEODIGIT**, our Spanish-spoken favourite service provider.
